No. 26

NEW "MYSTERY" WHEAT LIKELY TO CAUSE STIR

EDMONTON, Sept. 1.—Herman Trelle, world's champion wheat and oat grower, is paving the way for a new triumph that will likely cause a stir in the grain growing belts of Canada and the United States.

This is a new variety of wheat which can be sown later and ripens 18 days earlier than present varieties, and which is expected to cause a revolution in wheat growing in Western Canada.

When members of Dr. King's party visited Mr. Trelle's farm at Wembly during their recent tour of the north country, they found that successful experiments are being conducted with this mystery wheat.

It has been supplied from the Dominion Experimental Farm at Ottawa and gives indications of creating a sensation in Western Canada.

The samples were examined by members of the party and all were obviously impressed with the results of the initial tests.

This year Mr. Trelle is enlarging his holdings and has 480 acres as compared with 160 acres last year. He plans on continuing his experimental work on a large scale, according to members of the party.

Would Buy Didsbury's Plant

Calgary Power Co. Offer Twenty-Four Hour's Continuous Service

At a meeting of the Town Council held on Tuesday night, an offer was received from the Calgary Power Co. to purchase Didsbury's electric lighting plant.

There were present Mayor Chambers, Councillors Barrett, Berschit, Tighe, and the secretary-treas., W. A. Austin.

Messrs. Robertson and Chambers of Calgary were present to represent the Power Co.

Mr. Robertson stated his company was prepared to pay \$9000.00

for the electric lighting plant in Didsbury, an option to be given

the company to be exercised in May of next year. They would take the plant and transmission

lines over and give the town twenty-four hour's service, rates to be charged as per agreement submitted.

From the agreement read in part by the secretary, it appeared

the domestic rate would be as follows:

Available only for lighting, heating, cooking, domestic power and other uses in houses and apartments used exclusively for residential purposes:—a service charge of \$1 per month; the first 30 kwt. hours per month 10c per kwt. hour; the next 20 kwt. hours, 10c two kwt. hours. All over 50 kwt. hours per month, 10c per three kwt. hours. All over 200 kwt. hours per month, 10c per six kwt. hours with a minimum charge, including the service charge at \$2.00 net, \$2.80 gross per month.

In reply to a query by Mr. Austin, Mr. Robertson said his company would be agreeable to buy the transmission lines at \$8000, the town to retain the building and plant.

Mayor Chambers said the original cost of the plant was \$28,000, of which about \$12,000 was still unpaid. He thought in the interests of the ratepayers it would be advisable to have other advice as to the present value of the plant before doing anything definite.

Mr. Robertson said that from experience gained down south they had found necessary to make an agreement some months in advance as it took considerable time to plan the route, and where it was necessary to cross land to get the owner's permission. The company would be able to start service in Didsbury about September of next year.

After some discussion, it was decided to leave the matter open for a few days, the agreement meanwhile being left in the hands of Secretary Austin for consideration.

Golf Notes

(Innisfail Province)
Didsbury played here for the Orton Cup last Thursday and almost lifted the trophy. Another try or two and the cup may go south with them. The final score was 54 for Innisfail to 4 for Didsbury. The visitors were entertained by the local players after the game. The following is a result of the various games:

Didsbury	Innisfail
0 Gich	Grant 1
11 McDougall	Alston 0
14 Watt	Freeman 0
0 McCloy	Hill 1
0 Keith	Laird 1
4 Cressman	Letley 1
1	Tetley 1
11 Brusso	McLean 0
0 Johnson	Cavers 11
4 Totals	54

The Didsbury players have not given up yet and say that they will make an effort again this year if at all possible.

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of EPHRAIM BEAN SHANTZ, late of the Town of Didsbury, in the Province of Alberta, Retired Farmer, deceased.

Notice is hereby given that all persons having claims on the estate of the said Ephraim Bean Shantz, who died on the 27th day of October, A. D. 1921, are required to file with the undersigned by the 15th DAY OF OCTOBER, 1927, a full statement duly verified, of their claims and any securities held by them, and that after that date the Executors will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to their knowledge.

Dated this 23rd day of August, A. D. 1927.

W. A. Austin,
Didsbury, Alberta,

Opportunities For Britain In Canada

Great Britain has a problem and Canada has a problem, one being the exact opposite of the other. In the British Isles there is a surplus population for which employment cannot be found. In Canada there are enormous resources and vast areas of fertile lands which call for increased population in order that development may take place. The Old Land has too many people; this New Land has too few.

Looking at the face of things it would seem to be a comparatively simple matter for the British and Canadian Governments to evolve policies under which the surplus population of Great Britain could be transferred to the open spaces of Canada, thus solving the problems of both countries. But the solution is not so easy, in fact, it is most complex and difficult.

The class of settlers which Canada wants is the agricultural type, men and women who will go on the land. True, they may not have had actual farming experience to be welcomed and to succeed, but they must be of that class which is likely to make good on the land.

Great Britain, however, has no large surplus of this type. If, indeed, any surplus at all. The British surplus population is found among the workingmen, artisan and labor class, men and women who, because they cannot obtain steady employment, are obliged to accept the Government dole. Opportunities for the employment of any large number of these people in Canadian industry are small, and it would be most unfair to them to encourage their immigration to Canada where their presence would have an injurious effect on Canadian workmen and labor and lead to the creation of a Canadian situation not alike the present one in Great Britain.

The efforts of both the British and Canadian Governments are, therefore, confined to the training of a limited number of immigrants for agricultural pursuits and the proper placing of them on farms in Canada. Welcome as these efforts are, their effect on the respective British and Canadian problems of surplus and insufficient population is almost negligible.

There would seem to be a greater hope of making an effective contribution towards the solution of this joint problem in the adoption of the idea which has been urged of late, namely, that the great captains in British industry establish branch plants in Canada in order to enable them to successfully compete in the growing Canadian market with their United States rivals and that they staff these branch plants with their own workmen from the British Isles.

The general adoption of such a policy would result in profitable investment of British capital, would lead to a marked development of the natural resources of this Dominion, would help to adjust the balance of trade as between Canada and the United States, would add to the population of the Dominion profitably employed, would ease the unemployment situation in the Old Land, and would increase the productive capacity, the prosperity and wealth of the Empire as a whole.

It will be frankly admitted that the industrial leaders of Great Britain have had to face enormous difficulties during and since the war. They have borne, and are still bearing, heavy burdens. They may justly feel that the present is not the time to launch out on new and untried ventures. The situation is, however, that only through the adoption of heroic measures will conditions in the Old Land be bettered, and some relief brought to British industry. Furthermore, under existing conditions, British industries are losing out in the Canadian market. An effort should be made to hold and strengthen their position here before it is too late.

It is gratifying to note that one big British concern has decided on a great undertaking in the Province of Quebec, an announcement has just been made that British financial interests controlling tens of millions of capital have finally concluded arrangements for the utilization of Southern Saskatchewan lignite coal in the carbonizing and briquetting of this fuel on a large commercial scale and will within the next few months invest hundreds of thousands of dollars in the enterprise.

Premier Brownlie of Alberta and Hon. Chas. A. Dunning have both been urging the adoption of this branch factory policy upon the British manufacturer, and it is to be hoped that so astute a business man as Premier Stanley Baldwin himself a big manufacturer, will see the advantages to Britain, to Canada, to the Empire, of such a policy, and urge its adoption upon his fellow manufacturers in the British Isles.

Uses 'Plane To Operate Farm

The days when the horse was depended on to conduct the rancher over his domain passed to the era of the automobile a few years ago. And now the auto gives way to the air plane. The pioneer exponent of this trend is Jack Fancher, known as the "flying farmer," because he operates his huge wheat farm near Spokane, Wash., by air.

Manitoba's Minerals

Current activities in the mineralized areas in southeastern and northwestern Manitoba indicate that the province will soon become a steady producer of gold and possibly an important source of copper and zinc.

National Dairy Council

Mr. W. F. Stephan, secretary, announces that the ninth annual meeting of the National Dairy Council of Canada will be held at Toronto, on November 21 and 22 next. A number of questions will be up for discussion of interest to dairymen and dairy manufacturers. The programme will be outlined shortly.

The scales used in weighing diamonds are so delicately poised that the weight of a single eyelash will turn the balance.

With a total population of about 100, Leavenworth, a village in Suffolk has eighty bachelors.

British-Jap Naval Pact Is Reported

U.S. Informed Secret Agreement Between Nations Has Been Reached.

The Washington Post says that word has reached the state department officials from "trustworthy sources" that Great Britain and Japan came to a mutually satisfactory secret understanding regarding future naval supremacy when it finally became apparent the United States would not accept the British program at the recent Geneva conference.

The gist of the secret understanding has not been divulged, the newspaper adds, declaring that it is doubtful if much definite information on its content is available to the officials of the U.S. Government. The newspaper story also says the secret understanding is being discussed behind closed doors by officials here with a view to weighing possible consequences.

On Ladies' Toes Are Sore Corns

Quick safe relief is almost instantaneous if you apply Putnam's Corn Extractor. Shoes won't pinch or hurt any more. One single drop of Putnam's stops the pain. A few applications make the corn dry up and drop off. Putnam's Corn Extractor gives satisfaction. Thousands use it every day. Get a bottle from your druggist. Refuse a substitute for Putnam's.

Water Power Development

The present recorded water-power resources of the Dominion will permit of a turbine installation of 41,700,000 horse-power. The total hydraulic installation up to the end of 1926 throughout the Dominion was 4,556,226 horse-power or less than 11 per cent. of the recorded water-power resources.

GIRLHOOD DANGERS

Come Through a Weakening Of the Blood—A Tonic Is Needed

In their early teens it is quite common for girls to outgrow their strength, and mothers should carefully watch the health of their daughters at this time. It is when the strength is sapped by rapid growth that anaemia develops. The first signs may be noticed by peevishness, languor and headaches. The face grows pale, breathlessness and palpitation become apparent, with low spirits and depression.

Neglected anaemia often leads to a decline, but if you see that your daughter's blood is enriched there need be no cause for anxiety. The finest blood-builder ever discovered is Dr. Williams' Pink Pills. They will build up your girl's health and ensure for her healthy manhood. In proof of this Mrs. George Justason, Black's Harbor, N.B., says: "I think Dr. Williams' Pink Pills a wonderful medicine. My daughter, Margaret, was in such a badly run down condition that we feared she was going into a decline. Her face was pale, the least exertion would leave her breathless and she suffered from headaches. She had no appetite and lost a lot in weight. Up to the time we began giving her Dr. Williams' Pink Pills, no treatment had helped her. But thanks to the use of this wonderful medicine she is again well and strong, showing no signs of the trouble that had so weakened her."

In all troubles due to weak, watery blood, Dr. Williams' Pink Pills will be found a reliable remedy. Sold by all medicine dealers or sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

Good Crops Along H.B. Line

Grain fields equal to those on the prairies were seen at Mile 42, Cormorant Lake, on the Hudson's Bay Railway by J. D. Guild, superintendent of illustration stations for the Dominion experimental farm, who has returned from an inspection trip over the route. He reports that at other points, grain is coming along well except at Mile 81, where cutworms have done considerable damage to vegetables. At Mile 42 there is an excellent stand of flax and pumpkins 15 inches through.

Getting Rid Of Encumbrances

It is related that John Lawrence, who ruled the Punjab seventy years or so ago and who later became Viceroy of India, used to say that when he came across a young Britisher in the India civil service who was encumbered with a wife and a piano, he hustled him about from one jungle station to another till the young man parted first with the wife and then with the piano.

Drives away pain—Minard's Liniment

W. N. U. 1697

Would Extend Air Mail Service

United States Government Looks Towards Canada As a Field For Extension

Success of the air mail in the United States has led the government at Washington to look towards Canada as a field for extension of its service. Postmaster-General H. S. New has let it be known that he would welcome applications for air mail service between such points as Minneapolis or St. Paul, Minn., and Winnipeg, Man., where there is a fairly large exchange of mail over a short distance. In fact it is likely that preliminary steps will be taken soon to put in a trial service between these two cities but final action will not be taken until after the international air mail conference in Geneva.

It has been customary for the United States post office to await applications, which usually take the form of petitions, signed by a considerable number of people before establishing new air mail routes. A guarantee of about \$15,000 worth of business on any route is generally considered reasonable to justify opening a route.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, an excellent remedy.

Speaks Several Languages

Secretary Of State For the Dominions Finest Linguist In British Cabinet

Mr. L. C. M. S. Amery, the Secretary of State for the Dominions, is unquestionably the finest linguist in the present British Cabinet. He speaks several Oriental dialects as well as European languages.

When in Salonica, Sir George Milne, or "Uncle George" as the C. in C. was invariably called, asked once of his staff officers if he understood modern Greek. The officer replied that he did not, but that he had a good handbook on Greek and also that he knew a man who was supposed to be quick in picking up languages.

So Captain Amery was sent for and presented with the handbook. "Can you get the hang of it by next week?" asked Sir George. "Oh, certainly," was the reply. "You seem very confident," said Sir George. "Well, you see, I wrote it," replied Captain Amery.

Minard's Liniment relieves backache

The White Pine In Canada

The botanical range of the white pine in Canada extends from the Atlantic ocean to the province of Manitoba. It is confined to the region lying south of a line running approximately from the southeast corner of Lake Winnipeg, through Lake Nipigon, along the height of land north of Lake Timiskaming, through Lake St. John to Point de Mots on the St. Lawrence and Cape Breton Island.

About four inches in fifteen minutes is the speed of the spores.

If her heart is in the right place it matters not whether a woman is younger or older than she looks.

Genuine ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monosaccharide of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Disfiguring Blemishes Healed by Cuticura

Daily use of Cuticura Soap, assisted by Cuticura Ointment when required, not only soothes and heals unsightly and annoying blemishes and irritations on neck and face, but tends to prevent such conditions. Nothing purer, more economical or more satisfactory than these frankenstein emollients.

Sample Each Free by Mail. Address Canadian Depot: St. Lawrence, Ltd., Montreal. Price, Soap 25c, Ointment 25c and Cuticura 25c. Cuticura Shaving Stick 25c.

Drives away pain—Minard's Liniment.

ANTI-SMUGGLING PLANS DISCUSSED AT WASHINGTON

Washington.—The Royal Canadian Customs' Commission left for home after holding four formal meetings and several informal meetings with state, customs, coastguard and prohibition authorities here. It was permitted to look into the workings of the United States anti-smuggling machinery. It investigated the efficacy of the United States customs system in general and three or four branches of the system in particular. It received some suggestions from the United States authorities for improvement of conditions along the border. The commission will take all these things into consideration while it is preparing its reports to the Canadian Government after the close of the Ottawa sittings.

The commission while in Washington confined itself strictly to inquiry into procedure in the United States and any negotiations for a change in existing agreements between Canada and the United States will be instituted later on by the governments themselves.

Little information has been given out as to what actually happened at the conference here, but in unofficial talks with newspapermen, United States officials have let it be known that they are working towards tightening up of the 1924 anti-smuggling treaty between Canada and the United States. Assistant Secretary of the Treasury, Seymour Lowman, in charge of customs and coastguard patrols, announced that the border patrols would be increased from 200 to 400 men in the Buffalo-Lake Huron district, and prophesied that the United States would greatly increase the number of its coastguard vessels on the Great Lakes if the smuggling of liquor by this route continues.

It is known that United States would like Canada to establish her own consular agents in this country. The commission no doubt has been told that this would make it easier to prevent smuggling both ways and that consular certificates would go far toward minimizing fraudulent invoicing and double invoicing, which methods are now being used to cheat the Canadian Government of revenue.

Noted Explorer Is Slain

Reported That Members Of German Expedition To Interior Of China Are Massacred

New York.—The New York World says Dr. Wilhelm Fiehner, former staff officer of the Imperial German Army and noted explorer, and all of the members of an expedition he was leading, have been reported massacred by natives of the western part of Szechuan province, China.

The World's wireless station picked up a German trans-oceanic wireless press message to the effect that a British resident of Sikkim in the northern part of India, just south of Tibet, had reported that Fiehner and his party had been killed.

New Laying Record

Saskatchewan Barred Plymouth Rock Hen Is New Champion

Saskatoon.—A Barred Plymouth Rock hen owned by the University of Saskatchewan has made a new record for egg production.

Completing her pullet year, this new champion has to her credit a total of 329 eggs in 365 days. Not only is this a new record for Barred Plymouth Rocks, but as far as is known it is a new record for all heavy breeds of poultry.

This bird was bred and raised by the poultry department of the University. She is known as H.3403.

Poultry Congress a Success

Ottawa.—It is now stated by those who had charge, that the third World's Poultry Congress, held in Ottawa from July 27 to August 4, was a greater success than even its sanguine promoters predicted. Forty-two countries sent delegates and 1,146 birds numbering 10,000. There were birds from the poultry farms of King George, the Prince of Wales and various reigning monarchs of Europe.

Popularity Of Lindbergh

Seven Million Dollars Involved In Business Offers Since He Made Famous Flight

New York.—Charles A. Lindbergh can have \$6,000,000 by going through a real marriage ceremony in front of a movie camera and \$6,000,000 more by accepting the business offers tendered him since he made his non-stop trans-Atlantic flight, says Commander Fitzhugh Green, the lone eagle's chief secretary, in a popular Science Monthly.

Commander Green, who has completed a check up on mail and other communications to Lindbergh, says that among the 3,500,000 letters and 100,000 telegrams and cables received, were at least three proposals that the young flier join in an attempt to reach the moon by rocket shot from the earth. Lindbergh also received thousands of proposals of marriage. The aviator's mail included also 14,000 packages.

Lindbergh poems, sent in his mail, numbered 5,000 and upwards of \$10,000 was received in return postage. More than 500 "close relatives" asked him to "do something for them." More letters came from women than from men and letters from girls outnumbered those from boys four to one.

Col. Lindbergh answered many of the letters in longhand, but thousands found their way to the waste basket.

New Doukhobor Leader

Son Of Former Leader Leaving Russia For Canada

Yorkton.—Peter Verigin, new leader of the Doukhobors, second son of the former leader of the Doukhobors in Canada, leaves Moscow September 2, for this country, according to word received by a prominent member of the Doukhobor colony near Yorkton. He will sail from Southampton on the Berengaria for New York September 10. Permission for Mr. Verigin to leave Russia was extremely difficult to secure from the Soviet Government. Negotiations to this end have been under way ever since the death of his father in a railway accident two years ago, and many obstacles had to be overcome. Mr. Verigin will be accompanied by Paul Ivanovitch Blrukov as travelling companion.

Makes Altitude Record

French Aviator Attains Height Never Before Reached By Man

Paris.—Aviators intent on breaking the world's altitude record must climb higher than 42,651 feet in consequence of the feat of Jean Callizo who topped his own record by almost 1,700 feet. Callizo's former altitude record was 12,412 metres and the new mark is 13,600 metres.

"Never again. I don't want to fall off the earth," exclaimed the diminutive Frenchman when informed that he had attained a height never before reached by a human being.

Would Control Flights

Washington.—Rigid control of all future trans-oceanic air flights will be insisted upon by the National Aeronautic Association which announced that while it disclaimed any desire to discourage "individual initiative in the quest for new records" it would demand fitness of flying equipment and competence of personnel as indispensable conditions to sanctioning such flights.

Sugar Industry For B.C.

New Westminster, B.C.—Arrangements for the establishment of a beet sugar industry in the Fraser Valley by an English company, capitalized at \$2,000,000, have been completed, according to word received by the New Westminster Board of Trade. The company will acquire a large area in the Fraser Valley worked by English and Scotch labor. The plant, it is believed, will be located in New Westminster.

Drink More Milk

Minneapolis.—Mrs. Ella Boole, Brooklyn, was re-elected president of the National Women's Christian Temperance Union, in annual convention here. Milk drinking has increased 27 per cent and ice cream consumption also has gained since prohibition went into effect, said Miss Ephraim Marshall, Chicago, in an address before the convention.

GOOD CROP NOW BEING GARNERED IN PRAIRIE WEST

Ottawa.—Canada is in a fair way to garner another good crop, says a review issued by the Department of Agriculture based on reports submitted by the superintendents of the Dominion Experimental Farms. The survey includes wheat, coarse grains, potatoes, hay and forage, apples, tobacco, sugar beet, and turnips and covers all the provinces.

The wheat producing provinces of Western Canada are referred to separately in the review. In Alberta it is stated very heavy yields are indicated in all parts of the province. No frost or rust damage is in evidence. Cutting is well under way in the South and just started in the central part of the province. A bumper crop in the Peace River region is indicated. "In fact," says the report, "the province, as a whole, seems to be ready to harvest a nearly record crop of good quality wheat."

Cutting is general in Southern Saskatchewan, but just beginning in the more Northerly parts according to the review. In Saskatchewan some injury has been done by frost and rust but this is not likely to cause any great damage. On the whole, prospects in Saskatchewan are for a very good crop with yields somewhat above the average. With respect to the Manitoba wheat situation the bulletin states that about 40 per cent. of the wheat crop has been cut in the Southern part of the province and promises to be up to average.

In Central Manitoba, the crop is heavy and is being injured to some extent by rust. In the more northerly parts the crop is rather late and may be affected by rust and frost. The wheat crop in Quebec and Eastern Ontario will be about average, it is stated. In Western Ontario it is considerably better than last year.

Ship Cream To England

Quebec.—The Provincial Department of Agriculture announces that its experiments, conducted in co-operation with the Development Branch, Canadian Pacific Railway, in the shipping of sweet cream to England comprising four separate consignments, have been entirely successful, the cream arriving in uniformly good condition. Now that the possibility of this new development has been demonstrated it is expected that commercial interests will enter the field.

Human Fly Robs Hotel

Los Angeles, Cal.—A human fly burglar descended from the roof of the hotel at Alexandria by finger and toe holds, entered the rooms of five sleeping guests through the windows, and obtained \$200 in cash and jewelry valued at \$15,000. Detectives said imprints made by fingers and toes in the dust of window ledges were their only clues.

Asked To Appear In Movies

London.—King George and Queen Mary have been asked to appear in a "speaking movie," which will be shown in London this month in connection with the admiralty's full dress film reconstruction of the battles of Coronel and Falkland. The talking pictures are expected to be the sensation of the year.

"Fore" Replaces War Whoops

Were the stoic old chieftains of the past to sit up in their graves and watch this young chief driving from the eight tee on the Banff Golf Course, there is no saying whether they would grant in disgust or with approval. Chief Big Buffalo, who is seen about to drive, thinks they would be envious and would bemoan their fate at having to sleep on while their grandsons sent whistling drives over stretches that once echoed with their war whoops.

Public Opinion Against War

Increased Participation Of the Masses In Peace Movements

Vancouver.—Increased participation of the masses of the people in formulating the attitudes of nations toward each other was given by Sir George Foster, in addressing the Canadian Club here, as one of the forces operating against war. He cited as an example that not long ago war seemed possible between the United States and Mexico, but that immediately the chance of conflict became known people from all parts of the country protested to Washington. He said the history of negotiations before other conflicts showed that decisions were made on the prejudices of a mere handful of people.

"Read the negotiations which occurred before the last war and note the few persons who participated in them," he said.

Sir George spoke on "The New Internationalism." He said the most stupendous accomplishment in all history was the fact that the peoples of 63 nations had formed themselves into an association of nations to devise new methods of carrying on relations.

Complain About History Books

Report Says Text Books Used In Chicago Are Pro-British

Chicago.—Histories used in Chicago public schools were indicated as anti-American, pro-British and "grossly distorted" in an exhaustive report filed with Mayor Thompson.

John J. Gorman, former congressman who was commissioned by the Mayor to investigate the text books, said he found "they omit facts and distort and minimize many of the real characters, events and ideals hitherto held sacred to American history."

The report came fast on the heels of the suspension, under charges of insubordination, of William McAndrew, superintendent of schools, whom Mayor Thompson has assailed as "the stool pigeon of King George" and the instigator of alleged anti-American teaching in the schools.

No Increase In Immigration

Ottawa.—According to the Department of Immigration, June brought 18,652 newcomers to Canada as compared with 12,191 in June of last year—an increase of 48 per cent. The total for the first quarter of the fiscal year was 77,434 compared with 48,403 for the same quarter of 1926—a gain of 60 per cent. Of the June figures 7,272 were British, 2,642 were from the United States and 8,138 from other countries.

Asked To Appear In Movies

London.—King George and Queen Mary have been asked to appear in a "speaking movie," which will be shown in London this month in connection with the admiralty's full dress film reconstruction of the battles of Coronel and Falkland. The talking pictures are expected to be the sensation of the year.

GERMAN ENTRANT IS WINNER OF THE MARATHON SWIM

Lake Shore, Toronto.—Four miles and four and a half hours ahead of his nearest rival, Ernst Vierkoetter of Germany crawled across the finish line to victory and a cash prize of \$30,000 at the Canadian National Exhibition 21-mile marathon swim through icy cold Lake Ontario waters. Vierkoetter's time was 11 hours, 43 minutes and 38 2-5 seconds, a record for the distance.

Georges Michel of France, huge conqueror of the English Channel, finished second to collect \$7,500. Both men finished strongly, not showing any visible sign of great fatigue as a result of the long and terrific swim from morning until night, after ploughing their way to the close from 200 starters in one of the greatest swimming events ever staged on the North American continent. Michel's time was 16 hours and 12 minutes, using an easy trudgeon stroke.

Nearly a quarter of a million people welcomed Vierkoetter while several thousand waited the intervening hours to greet the second prize winner with a tremendous ovation.

William Erickson of New York, the "floatier," was the last to finish, but owing to withdrawals took third place in the prize list. His time was 18 hours and 50 minutes.

Report Labor Increase

Data Show Gain In Prairie Provinces During July

Regina.—The Labor Gazette reports that in the prairie provinces last month the greatest gains in employment were in construction, manufacturing, transportation, service and communications, while logging (in which the movement was seasonal) showed a decline. Data were compiled from 775 employers with an aggregate staff of 118,556 workers, as against 113,998 in their last report. This increase of 4,558 workers exceeded that registered on July 1, 1926, while the level of employment was higher than on the same date in any other year of the record.

Alleged Spies Arrested

Leningrad, Russia.—The political police have arrested an alleged group of 26 spies, charged with espionage in behalf of the British intelligence service in Finland. Most of the accused, including several women, hold various positions in the army, navy and civil service institutions, and are alleged to be in charge of a British naval captain with headquarters in Finland.

Under Royal Patronage

Calgary.—The Alberta Wheat Pool is now under Royal Patronage, the announcement being made in the current issue of the U.F.A., the official organ of the United Farmers of Alberta. It announces Prof. W. L. Carlyle, the manager of the E.P. Ranch, on behalf of H.R.H. the Prince of Wales, had signed a pool contract covering 1,000 acres.

Has Population Of Million

Montreal.—In the preface to the annual report of 1926, which has been published and distributed by the city treasurer, are found statistics concerning Montreal which show it to be one of the nine largest cities on the North American Continent with a population of 1,600,000.

Saved Millions For Employers

Detroit, Mich.—James Everett Smith, steel expert of the Ford Motor Company, died Monday after a long illness. Smith saved the company \$36,000,000 in four years by use of a new method to harden steel, according to a statement written by Henry Ford in his autobiography.

Huge Sum For Defence

New York.—The seven year vain struggle to save Sacco and Vanzetti from death in the electric chair entailed expenditure totalling more than \$250,000. Alfonso Feliciano, treasurer and founder of the Boston Defense Committee, announced here.

Thirty per cent. of American men and 61.1 per cent. of the women are total abstainers, an estimate shows.

LOCAL AND GENERAL

Mr. and Mrs. Durrer moved into
their new house opposite the fire
hall on Monday.

M. and Mrs. J. V. Berscht
autoed to Hanna on Monday, vis-
iting at one or two places en route.

J. W. Phillipson made the jour-
ney to Edmonton on Monday by
auto in four hours and forty min-
utes, a distance of 153 miles.

This approximates Lindbergh's
speed as near as one cares to take
it and remain on terra firma.

Mrs. D. A. Cooper of Parkhill,
Ontario, spent a couple of days re-
cently with her aunt and cousins
at the Hughes' home.

Messrs. A. G. Ford and Frank
Ford of Neustadt and Wingham,
Ontario, spent Sunday afternoon
with the former's aunt, Mrs.
Hughes.

Miss Annie Sweeney of Calgary
is spending her holidays with Mr.
and Mrs. Allen Hunsperger.

James Golley has returned to
Calgary after spending a few
months around Didsbury.

A delightful birthday surprise
party was enjoyed at the home of
Mr. and Mrs. Allen Hunsperger

for their daughter Grace on Wed-
nesday, August 31st. About thirty-
five young folks gathered there
and the evening was spent in play-
ing games. At midnight a delicious
lunch was served consisting of
sandwiches, cakes and ice-cream.

Miss Enith Hunsperger has re-
turned home after spending a
week in Calgary visiting with relatives.

A large number of young people
spent a pleasant evening at the
home of Mrs. F. Folkmann last
Monday, August 29th, in honor of her
son Teddy's birthday.

Miss Grace Hunsperger spent
the week-end in Calgary returning
Sunday with her sister.

C. Shantz and Geo. Coleman of
New Dundee, Ontario, are visiting
the former's daughter, Mrs. Mel.
Shantz and other friends in the
district.

The W.C.T.U. will meet at the
home of Mrs. Rupp on Wednesday
September 14th. Topic — "The
child in the midst," to be given
by Mrs. Harder. All members
cordially invited.

Mr. and Mrs. Stewart Tighe
were in Calgary over the week-
end visiting friends.

H. J. Siebert of Canada, Kansas,
is visiting with his sister, Mrs.
W. E. Reider.

Kendrick & Good shipped two
cars of horses on Tuesday to Cal-
gary.

Mrs. W. H. Chamberlain and
daughter Florence spent a few days
in Calgary last week visiting
friends.

The Didsbury General Hospital
wishes to express its thanks for
the generous donation of vegetables
sent in from the school fair held
recently.

The net value of the estate of
Frederick August Folkmann, of Dids-
bury, deceased, has been sworn by the
administrators, John C. Folkmann,
Fred H. Folkmann and Henry W.
Folkmann, farmers, of Didsbury dis-
trict, sons of deceased, as under
\$13,500. To his widow, Meta Fol-
kmann, deceased left a life interest in
the estate. At her death the estate
to be divided among his five sons and
two daughters. W. A. Austin of Dids-
bury is solicitor for the estate.

John F. Miller, Eye Sight Spec-
ialist of 404 Underwood Block,
Calgary, will be at the Rosebud
Hotel in Didsbury on Saturday,
Sept. 17th, for the purpose of cor-
recting your and your children's
eyes. Do not miss this opportu-
nity.

Successful Show at Rugby.

The Rugby W. I. held a very
interesting Flower and Vegetable
contest recently. Judges were sup-
plied by the Olds School of Agri-
culture. An interesting discussion
followed during which the judges
answered questions, and illustrated
the qualities of the standard article
which is the basis of the prize.

While the Judging was going on
Mrs. Farrant entertained the audi-
ence with an outline report of the
the W. I. convention at Edmon-
ton in May. Mrs. McArthur of
Harmattan gave a talk on the pio-
neer mission work of Saint Francis
in South California.

Prize List of Rugby Contest
Pansy, 1st. Mrs. Hosegood, 2nd
Mrs. Parker, Philox, 1st. Mrs.
McFarlane, Nemesia, 1st. Mrs.
Hosegood, 2nd. Mrs. Parker. Al-

ican Daisy, Mrs. Hosegood, 2nd

son. Onion, 1st. Mrs. W. F.
Brown, 2nd. Mrs. O. Krebs.

Grant of \$200 Withheld

(From Innisfail Province)
"Discussion re grant to Strom-
Killam Fair. It was moved by Sedg-
wick that the grant of \$200 voted to
the Strom-Killam Fair be withheld
until a satisfactory explanation is
given as to why the Fair was not ad-
vertised in the Strom-Killam Des-
patch, which is sent to every farmer
in the municipal district, as this coun-
cil is of the opinion that every farmer
in this district is entitled to know
when the fair is being held. Carried."
—Strome Despatch.

This is part of the minutes of the
council meeting of the Sterling Municipality No. 425, held August 4th, '27.

It is a pleasure to a newspaper to
read a resolution like the above, as it
shows that advertising in the local
newspaper is coming more and more
into its own and its real value recog-
nized.

SELECT AND CURE

SEED CORN NOW

To insure a dependable supply of seed corn it should be selected early—before severe frost—and carefully cured. The best seed corn to be had is that which ripens in the district where it is to be grown, as it is more certain of producing a satisfactory crop than that shipped in from several hundred miles south.

Corn of all kinds is later than usual this year on account of late planting and the cool weather that we had during May and June, but a considerable proportion will make good seed if it is gathered before frost and cured thoroughly. If the flint varieties have started to glaze they may be safely gathered, and if the dents show signs of denting they will cure into a good grade of seed.

As soon as the ears have been pulled the husks should be stripped back or removed to allow the moisture to escape quickly. They may be tied up in bunches so that the air can circulate freely around them or they may be placed in a wire rack made by nailing chicken wire on each side of a two by four framework. It is important that the ears do not touch one another, that there be a free circulation of air in the room, and that the temperature of the room be above freezing point until the ears are well dried out. To be sure of this it is usually advisable to make provision

for heating the room used for curing the corn. When the corn is completely dry severe frost will not damage it, but when it is full of moisture it may be completely ruined by frost even when under cover.

In a season when good seed corn can be secured it is advisable to save enough for two seasons' planting as there are years when little corn ripens.

Keep the Corn Shows in mind and show some of the best you have grown to see how it compares with that which others have produced. Or better still, attend one of the corn shows and see the different lots for yourself. There is no better way to get to know seed corn.

District Agriculturist

OPERA HOUSE

A fine picture will be shown at the Opera House, Saturday night, entitled "Drums of the Desert," by Zane Grey. On Wednesday, Sept. 14th, "The Winning of Barbara Worth," a stirring story by Harold Bell Wright.

The Dempsey-Sharkey fight will be shown at the Opera House on Saturday September 17th. One showing only at 10.15.

From Guesswork

to

Scientific Accuracy.

MOST home owners heap abuse on their furnace. To it is attributed high fuel bills, coughs and colds, chilly inside temperatures—

Yet the furnace is seldom to blame. Its inefficiency is usually due to shoddy installation. Properly installed warm air is the most effective heating system obtainable. Yet even the best warm air furnaces become inefficient and wasteful if they are not installed According to Standard Code.

"Code Installed" means that your system is planned by experts according to tried and proven scientific principles. It guarantees the most healthful, efficient and economical heating plan in your home can accommodate—raising warm air heating to a plane far and above that of any other type of heating system in the country.

McClary's are the only Canadian members of the National Warm Air Heating and Ventilating Association—a body of leading manufacturers who have adopted a scientific code for installing warm air furnaces. By insisting on a McClary's "Code Installed" Sunshine Furnace you are guaranteed a heating system which costs less to buy and less to maintain than more elaborate yet less effective systems—yet provides 70 degrees of heat in every room.

Ventiblast

McClary's Ventiblast is an exclusive feature of McClary's Sunshine Furnaces. It burns soft coal equally as well as hard coal or wood, thus eliminating all fuel worries during possible hard coal shortages.

A Canadian citizen touring certain sections of the United States a few years ago, reported on his return that he had passed through several good-sized towns where absolutely ideal business conditions obtained. It had been possible to establish a spirit of co-operation and good will, not only among the business and professional men, but also between these and the general public, with the result that the most harmonious relations pervaded these towns. The business men were content to live and let live, to refrain from adopting unfair and unethical business methods, to lend a helping hand to each other in trouble and adversity, and to extend to one another such business patronage as lay in their power. Thus the carpet-bagger invariably got the "cold shoulder", for it was firmly established and acknowledged that every order which could be placed in the home town, but which was sent elsewhere, simply drained that community of legitimate revenue, and served but to enrich some other locality. Business left in the home town helps everybody in such town.

Therefore, when considering orders for printing of any kind, remember it can be done expeditiously and well by your home town printer.

ELECTRIC LIGHTING The Lister Way!

The Greatest British-Built Utility on Record

1000 and 1500 Watts capacity, either of which provide a complete lighting service for the farmstead or country home with power in reserve to run the domestic machinery.

Engines of 2 and 3 H.P., radiator cooled, slow speed, high tension magneto ignition, automatically lubricated. Belt pulley on all engines.

Positively unrivalled either as a power plant or lighting service.

King's Job Not Enviable

Everything Mapped Out For Months Ahead Makes Life a Drudgery

There is no doubt that the strain of the daily life of the King and Queen, with every waking hour mapped out for months ahead, is much greater than the public realize.

Everyone connected with the Court comments on the splendid health and spirits which the Queen always enjoys. The King is now and then fatigued, but she is never.

There is no harm in repeating a somewhat pathetic comment of the King on his own drudgery in fulfilling, as he does, so scrupulously and good-humoredly, the truly tremendous programme laid almost daily before him. Visiting the Lord Mayor of London the other day, whose life during his year of office is, as everyone knows, a veritable slavery, the King remarked: "You have to do this for twelve months but I have been doing it for sixteen years."

Motor Exhaust Kills Tulips

Famous Dutch Flowers Die In Gardens Of Paris

The famous Tuilleries tulips have bloomed for the last time. They are victims of the exhaust of automobiles in the Rue de Rivoli. The bulbs were presented to the city of Paris by Dutch growers five years ago, and were planted in the Tuilleries Gardens, an ideal setting for their masses of gorgeous colors. But each year they have dwindled and it was found that the prevailing westerly winds blew on to them a low wave of mephitic gas from passing automobiles, affording an additional proof of the deleterious effect of the growing number of automobiles on the atmosphere of Paris.

Winnipeg Newspaper Union

A Chic Blouse and Separate Skirt

Extremely smart is the blouse shown here, having two points at the lower front edge, set-in pockets, and long or short sleeves extending into the neck. No. 1641 is for misses and small women and is in sizes 16, 18 and 20 years. Size 18 (36 bust) requires 2 1/4 yards 39-inch, or 1 1/2 yards 54-inch material; 3/4 yard less 39-inch material for short sleeves. Price 20 cents the pattern.

The skirt, having two box pleats in front and gathers at the back, is joined to a bodice top. No. 1349 is in sizes 16, 18 and 20 years. Size 18 (36 bust) requires 1 1/2 yards 36 or 39-inch material and 3/4 yard 36-inch lining for bodice top. Price 20 cents the pattern.

The designs illustrated in our new Fashion Book are advance styles for the home dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy will find her desires fulfilled in our patterns. Price of the book 10 cents the copy.

Would Help Aviators

Towns Should Show Their Name Readable From Air

British aviation authorities say the time has come for English towns to erect big signs with the names of the town visible to casual airmen who hop the Atlantic now with the simplest of navigation instruments and big scale maps.

The request of Edward F. Schlee and William S. Brock, in the pride of Detroit, that the inhabitants of the little South coast resort of Heaton spell out the name of the town and country on the beach sand so the fliers would know what country they had reached, will go down in history as one of the strangest questions ever asked in England.

Diarrhoea Summer Complaint HE ALWAYS USES

Mr. T. F. McGregor, McLennan, Alta., writes:—"Over forty years ago my mother used to give us Dr. Fowler's Extract of Wild Strawberry for diarrhoea and summer complaint. All through the years since then when troubled with an excessive looseness of the bowels I have been accustomed to take a few doses of the same old, reliable remedy and it always seems to have the desired effect, no matter what the cause."

Don't Accept a Substitute

This valuable preparation has been on the market for the past 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Energy From the Sun

The time is near, says Charles F. Kettering, New York inventor, when the energy of the sun will be put directly to work instead of storing it up in coal and oil deposits and using it as now is done. Uncounted billions of potential horsepower are going to waste each day, he says, because the sun's rays are not used.

Miller's Worm Powders prove their value. They do not cause any violent disturbances in the stomach, any pain or griping, but do their work quietly and painlessly, so that the destruction of the worms is imperceptible. Yet they are thorough, and from the first dose there is improvement in the condition of the sufferer and a cessation of manifestations of internal trouble.

Cop (to victim of wreck)—"Why did you try to cross the tracks? Didn't you know the 4:15 was due?"

Brown—"Yes, but this is the first time in years that it was on time."

Adversity sometimes transforms a coward into a hero.

Witness Centenary Celebrations

P. Ashby and C. E. King, from Uxbridge, England, returning home on the Cunard liner *Ausofia* from Montreal, after a visit to Uxbridge, Mass., where they witnessed the centenary celebrations, and Uxbridge, Ont.

SUNDAY SCHOOL LESSON

SEPTEMBER 11

SOLOMON DEDICATES THE TEMPLE

Golden Text: "I was glad when they said unto me, let us go unto the house of Jehovah."—Psalm 122:1.

Lesson: 1 Kings 8.

Devotional Reading: Psalm 122.

Explanations and Comments

I. The Great Procession With the Ark and the Tabernacle, verses 1-5.—It was during the Feast of Tabernacles, which began on the fifteenth of the seventh month and lasted seven days (Lev. 23:34), that the elders of Israel and all the heads of the tribes brought up the ark of the covenant out of the city of David, which is Zion. "Both the House of Commons and the House of Lords were present, as we would put it, for the elders were the chosen representatives of the people, and the princes of the fathers' houses were the hereditary leaders. In addition there was a vast attendance of the rank and file" (R. C. Gillie). Two processions advanced from different directions. One came from Gilead and bore the sacred tabernacle with its goat's-hair covering and boards of acacia wood, and all its holy vessels—the brazen altar, the golden candlesticks, the table of shew-bread, and the brazen serpent. On Mount Zion this procession joined the other which bore the ark away from its temporary tent erected for it in Jerusalem by David. As the two processions proceeded to the temple, Solomon and a great congregation with him sacrificed a host of sheep and oxen. "The road was flooded with the streams of blood. The air was darkened and scented with the clouds of incense; the songs and dances were unintermittent. Onward the procession moved up the slope of the hill. It entered court after court of the temple. It reached the Holy Place" (Stanley). By this lavish slaughter Solomon was honoring God in the best way known in those days. It was a primitive method of saying that king and people set no limits to the honor they would show Jehovah. "There is something repulsive to us in this circumstance, but there is a noble side to such garishness of slaughter. Barbaric it was, but devotional also. Before we blame them, we have to be ready to give as freely in our purified, higher way to the service and worship of God"—R. C. Gillie.

A Power Of Its Own.—Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

Mining Men Go To Europe

Will Investigate Treatment Of Coal For By-Products In Germany

Hon. Charles Stewart, minister of mines, and Dr. Charles Camsell, deputy minister, have sailed for Europe. Mr. Stewart is one of the Canadian Government's representatives to the League of Nations conference at Geneva.

After the sessions of the League he and Dr. Camsell will visit many of the industrial centres of Germany and England for the purpose of investigating the progress made in the past few years in the treatment of lignite and bituminous coal for by-products in Germany.

Producers in Germany claim that they can secure oil from coal at a less cost to them than crude oil.

WILSON'S FLY PADS

Will kill many times more flies for the money than any other fly killer. Each pad will kill flies all day, every day, for three weeks. At all Grocers, Drugists and General Stores—10c and 25c per package.

Borden's ST. CHARLES MILK

Make the Penalty Fit the Crime

Proposal Made That Whipping Be Added To Jail Sentence For Stealing Cars

Whipping with a strap persons convicted of theft of motor cars is one of the amendments to the criminal code proposed in the report of the Canadian Bar Association's committee on administration of justice.

The report was presented to the association at its annual meeting by Judge E. Coatsworth of Toronto.

Judge Coatsworth urged immediate legislation by the Dominion and provincial parliaments to incorporate in to the criminal code the important amendments suggested in the committee's report.

Concerning the penalties for auto theft the committee recommended that instead of the present one year sentence provided by the code, the penalty be two months' imprisonment with a whipping in the second month with a strap instead of a cat-o-nine tails.

The committee also advised provincial legislation for supervision of persons let out on suspended sentence; for a system of parole, and for "effective dealing" with all the feeble minded and mentally afflicted both when in court and in confinement.

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

The farthest north radio station in the world is one just established by the Soviet government on Cape Desiré, in the Arctic Zone. It is intended for communication with Arctic explorers.

A blush is one of the few things that cannot be counterfeited.

SHIP YOUR GRAIN TO
The Old Reliable Firm Of **MCBEAN BROS.**

Write us for information regarding the markets. We will say now that so far as we can see the World's conditions warrant high prices for this year's crop, and if your wheat is handled intelligently we can see no reason for the farmers taking less than \$1.50 a bushel, and the possibilities are for a great deal higher price. The big shortage in the corn crop in the United States is a very bullish factor for our coarse grains. Give us a trial. We are licensed and bonded. Reference: Bank of Nova Scotia.

PAINTED FIRES

BY NELLIE L. MCCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER VII.—Continued

Every seat in the courtroom was filled. It is not every day such a thrilling case can be offered to the unemployed public. A young girl, pretty and well-dressed, found in a Chinese den with heroin tablets in her possession, who resisted arrest, fighting like a wild cat, injuring an officer, and now refusing to say a word, is no ordinary attraction.

The gallery, reserved for the purpose, swarmed with anxious spectators. There was going to be a great show. Men with blue-black whiskers showing through the skin of their faces; and black shirts with a button or so gone, disclosing hairy chests; weedy youths, pimply of face; stoop-shouldered older men with velvety noses and heavy jowls, burned down to the butt like old cigars; eager-faced women, excited and strident, the boudoir-cap type, hungry for sensations to fill their idle days; flat dwellers, bargain hunters, can-openers, secure in their law-abiding virtue, they came crowding in, hungry-eyed and jostling. Their liberty was sweet to these women this morning when contemplating the prospect of another woman's possible loss. It gave them that pleasurable thrill of comparative virtue.

The Press table was full. It looked like heart interest story, — real thrill stuff—lovely, but misguided youth.

Helmi's case was the first called. The police matron brought her in and sat with her. Her face was pale, but there was no shrinking or fear in her eyes, and the eager crowd, whose eyes were all fixed on her noticed that she anxiously searched for someone. Her friend would have come if she were well enough, Helmi thought, and again her rage kindled against the fate which prevented her from carrying out the very first favor her dear friend had asked her to do. She would know, though, that it was through no fault or carelessness of hers. Maybe she had died for lack of that medicine they had taken away from her. Maybe her dear friend had died—and there was no one she could ask. She must not ask—that was the

trouble in her heart as she faced the crowd with its hundred eager searching eyes.

Under a glass roof, suspended by chains from the ceiling, sat the magistrate, alert, eager. He would see if this Finn girl would refuse to answer questions. He would put something of the fear of the law into her. These Finn girls! He knew them; hadn't he had enough trouble with them?

The police officer gave evidence and identified Helmi. The one with his arm in a sling told his story. "The girl appeared to be very frightened, and did not understand that she was arrested, Your Worship, I think," he said.

"I am not yet convinced that this girl does not understand English," his Worship snapped, "that is a point to be decided, and she can save herself, a lot of trouble now if she will tell us the whole story."

"What is your name?"

The interpreter spoke to her.

"Helmi Milander," she answered.

"Yes, that name is well known in this court—I had the pleasure—painful duty not long ago of sending Anna Milander to jail for a similar offence, attacking a policeman. Have you a sister named Anna Milander?"

When the interpreter put the question, Helmi admitted that she had but not knowing what the magistrate had said, she did not know the implication. The interpreter did not give her all that he had said.

Miss Rodgers was on her feet in a moment. "Your Worship—" she began.

The magistrate ordered her to sit down.

"I demand to be heard," said Miss Rodgers. "An injustice is being done this girl."

"All in good time," said the magistrate sternly. "You will get a chance to speak, but you cannot interrupt this court."

There were murmurs in the gallery. "Served her right to be set in her place!" "Gee, doesn't Magistrate Windsor know how to handle a case. No one can put anything over on him." The pimply face loafers were having a positive thrill. They gloated over Helmi's pale face with its proud defiance. She would get jail as sure as she was an inch high, and when she came out she couldn't pull that stuff on them. Girls just out of jail were not so uppity; they were glad to have anyone show them around. They nudged each other.

"Now, I want you to speak," the magistrate said slowly, and speaking in a long-distance voice. He seemed to think it spoke loudly she must understand. "You are either an old hand at this business, young and innocent as you look, or you are hiding someone. You must speak. Just say the name of the person who sent you to Sam's for dope."

Again the interpreter spoke to her, and the crowd waited.

Helmi shook her head.

The spell broke at that, and the gallery relaxed. A rustle of whispers crackled over it, like a gust off dry leaves.

"Silence!" commanded the magistrate, and again the tightening came in the Court. The air was heavy now with unwashed humanity, perspiring feet, bad breath, scented soap. Outside, wagons rattled by, street cars clanged.

"Has any person anything to say?" asked the magistrate, looking wrathfully at Miss Rodgers, who came forward.

"Give your name," commanded the magistrate sternly, "and be brief."

"This young girl has lived in our neighborhood for three months, and bears a good character," said Miss

Rodgers. "She belongs to a girl's club, which she attends regularly; she has no bad habits, and is steady and industrious. She is an innocent, healthy, normal girl. It was not her sister whom you sentenced. She has no relatives here. Her sister is in Finland."

"She belongs to a girl's club, does she?" the magistrate seemed to bite the words off. "Well, I'll tell you and her, for I believe she understands every word, that I don't believe in girls' clubs or women's clubs either. Women and girls have too much liberty these days, and that's why they are going to the devil. They don't work any more—they just gad around to picture shows and get into trouble, and the women's organizations encourage them instead of trying to restrain them. The old-fashioned girl stayed at home and worked with her mother. But now the mothers are out reforming the world, and the girls are on the street or in their clubs. I blame the club women of this city for the devilment that goes on among the young people, for the home has gone. I tell you, there's no religion in the homes any more, no respect for law,—nothing but birth control clubs, political clubs, bridge clubs, while the young girls and boys steal cars, joy ride and snuff dope. There you are!"

The cliff dwellers were enjoying it. They did not belong to the women's organizations, so he didn't mean them.

Mr. Terry came forward and asked if he might give evidence.

"This girl's mother cannot be blamed," he said, "she is dead. Helmi has been here only a few months. If our society is in the state you say—"

"Give your evidence, Sir," interrupted the magistrate, "this is a court of law—you are not preaching, remember."

"Let her speak, then. No one is stopping her. Let her clear herself."

"It would be an iniquitous thing to send this girl to jail, where she will associate with evil women. I plead for mercy. She struck the policeman in her fright—he says so, too."

The crowd in the gallery were restless. They resented the preacher's coming into the play. The modern preacher who comes boldly into public life without apology is a jarring note in the complacent philosophy of their class. They had much the same conception of a preacher as the magistrate had. Preachers should be simpering, tea-drinking, bazaar-opening curates, pallid and dandruff, with decayed teeth.

(To Be Continued.)

Eskimos Grateful To Dentist

Do Not Mind Having Teeth Pulled
Says Professor Waugh

Eskimos like to have their teeth pulled, says Dr. L. M. Waugh, professor of orthodontia in the Columbia school of dental and oral surgery, in a report sent from the Labrador coast, where he is carrying on research with the Eskimo tribes in Northern Labrador and the Ungava Bay region.

Eskimos make grateful patients when their confidence is once gained, states Dr. Waugh, and extraction brings smiles instead of wry faces.

After he had extracted teeth from a group of Labrador Eskimos, including four women and five men, they smiled and thanked him, and all said that "it didn't hurt at all." Dr. Waugh indicates that this attitude is characteristic of all his Eskimo patients.

Again the interpreter spoke to her, and the crowd waited.

Helmi shook her head.

The spell broke at that, and the gallery relaxed. A rustle of whispers crackled over it, like a gust off dry leaves.

"Silence!" commanded the magistrate, and again the tightening came in the Court. The air was heavy now with unwashed humanity, perspiring feet, bad breath, scented soap. Outside, wagons rattled by, street cars clanged.

"Has any person anything to say?" asked the magistrate, looking wrathfully at Miss Rodgers, who came forward.

"Give your name," commanded the magistrate sternly, "and be brief."

"This young girl has lived in our neighborhood for three months, and bears a good character," said Miss

Little Helps For This Week

For I reckon that the sufferings of this present time are not worthy to be compared with the glory which shall be revealed in us.—Romans viii. 18.

But all through life I see a cross, Where sons of God yield up their breath;

There is no gain except by loss, There is no life except by death;

There is no vision but by faith, Nor glory but by bearing shame,

Nor justice but by taking blame,

And that Eternal passion saith,

"Be emptied of glory and right and name!"—Walter C. Smith.

The prime condition of a life ever found is a life ever lost. But there are times when we all feel poor and bare and sad for our losses, and wonder whether it was not all wrong when the treasure was taken away.

If we are poor because we stand true to life and duty, we are poor only as the sower is poor, because he has to

cast his wheat into the furrow and then wait for the sheaves of harvest.

Our poverty then is our wealth, and our loss our gain.—Robert Collyer.

BABY'S OWN TABLETS
HELP A PRIZE WINNER

Baby's Own Tablets are without an equal for little ones. From the newborn babe to the growing child they are an absolute safeguard to health.

Once a mother has used them she will use nothing else. Thousands of mothers always keep them on hand.

Among the mothers who state that Baby's Own Tablets are the best medicine for little ones that they know of is Mrs. Russell Hill, of Norwood, Ont. Her experience with the Tablets should be of great benefit to any mother who has not already given them the Tablets a trial. Mrs. Hill says:—"I have five fine healthy children, and from the youngest to the oldest they get no other medicine but Baby's Own Tablets. When our baby girl was eleven months old she won second prize at the Norwood Fair, and when she was a year older she won first prize in competition with twenty-eight other babies. It was the Tablets that gave her the health and development to carry off these prizes. I always delight in telling other mothers what the Tablets have done for my children."

Baby's Own Tablets are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

The Danger Of Forgetting

British Empire Through Modesty
Losing Sight Of Accomplishments
During War

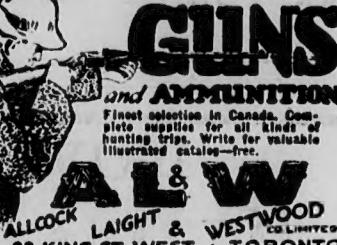

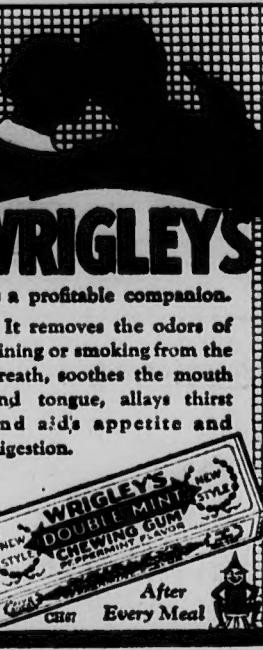

Lord Haig rendered a service to the Empire by his presidential speech at the conference of the British Empire Service League. It was high time that some one should speak out boldly and frankly about the magnificent accomplishments of the Empire in the Great War, the unprecedented burdens it shouldered, not only on its own behalf, but on behalf of the whole of civilization. Our incorrigible habit of belittling our own efforts and applauding those of our neighbors has in this instance been carried a good deal too far, both for our safety and our self-respect. It has allowed the propaganda of nations not timid in self-adulation to convince the world that it was they, and not we, who bore the main burden—a fact that is exceedingly damaging to our name and reputation abroad. But the damage does not end there; for the truth is that, with our own overdone modesty and the overdone claims of others, we have ourselves begun to forget the glory of the part we played.

"Have you any cheese?"

"Yes, we've got some nice cottage cheese."

"Oh, but we don't live in a cottage any more. We live in a nice apartment house now. Have you any cheese fit for that sort of place?"

Minard's Liniment eases sore feet.

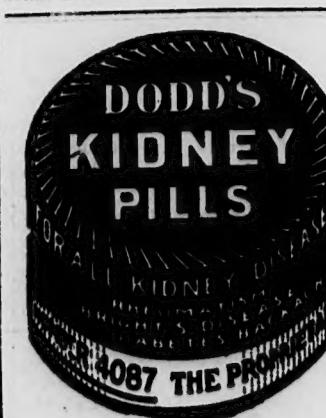

Do You Cough?

Photo by Kennedy

Guelph, Ont.—"I caught a severe cold and could not seem to get rid of it. It just clung to me and finally settled in my bronchial tubes causing me a lot of trouble. The cough would be more severe at night than during the day, causing sleeplessness. I finally decided I would try Dr. Pierce's Golden Medical Discovery and by the time I had taken one bottle I was entirely relieved of the bronchial trouble—my cough disappeared and I have had no trouble with a cough since. I do not think a person can take anything better for bronchial weakness or deep-seated coughs than the 'Golden Medical Discovery'—Miss Mary Duggan, 170 Ontario St. Liquid or tablets at your neighborhood store.

Church Announcements

EVANGELICAL NOTES.

The church service in honor of the "Old People" last Sunday morning was well attended by both young and old. In his message the pastor spoke of "The Sunrise, Noon and Sunset of Life," as applied to childhood, middle-age, and old age. By contrast of a few Biblical and other examples, the possible beauty of character and honor against dishonor in the sunset of life was shown as a point of great importance. There were in attendance about a dozen over 70 years of age, the two oldest being Mr. B. Hunsberger, 88, and his wife 85 years of age both in reasonably good health.

The new Presiding Elder and Supt. of Missions of the North-West Canada Conference, Rev. W. W. Krueger, Regina, Sask., will make his first official visit to Didsbury on Friday, Sept. 16th. At his request a quarterly conference meeting will be held on the evening of that date.

The Evangelical S.S. at the Sunnyslope school house had a very fine picnic at the Dog Pound creek near Cremona last Wednesday.

KNOX and WESTCOTT
The minister has been making a study of the uses of water as it pertains to the religious life. Jesus spoke of Himself as "The Water of Life." This Sunday the subject chosen is "The Song of the Well."

Rally Day is set for September 25th, and plans are afoot to make this a big day.

Lone Pine Hall. Services at 3 p.m., Sunday School at 2 p.m. on September 11th.

Community Hall. Harvest Home Services are to be observed Sunday Sept. 18. Those in the district are asked to help in the decorations.

S. T. CYPRIAN'S

(Church of England)
Priest-in-charge, Rev. H. Clay, Box 157, Olds.
First Sunday in the month—Afternoon at 3:00 p.m.
Third Sunday in month—Morning at 11:00 a.m.
School is held every Sunday.

LUTHERAN CHURCH

Sunday, September 11th. Westcott 10:30 a.m. English; Didsbury 2:30 German.

In an age such as the present where unionism is high in the air and where the line of demarcation distinguishing the church from the world is growing faint, Sunday's subject is timely indeed:

The believer and the Unbeliever unequally yoked together.

(a) When are believers and unbelievers unequally yoked together. (b) Why can't such unequal yoking not consistently be carried out. (c) What is the duty of all believers who with unbelievers find themselves unequally yoked together. The sermon will be based on 2 Cor. 6:14-18.

The net value of the estate of Chas. Edward Greenway, deceased, late of Carstairs, has been sworn by the executors, Robert A. Shaw, Hattie Morrison, and Alfred Sydney Gough, as under \$22,600. To his widow, Rosa Greenway, testator left a life interest in a quarter section, and the implements and livestock thereon. To Mrs. Hattie Morrison of Carstairs, \$1,000 cash; \$900 in Victory Bonds, and \$770 in Royal Bank shares. To Ethel Morrison, daughter of Mrs. Hattie Morrison, land valued at \$6,143.00; cash \$1,000, and a reversionary interest in the land in which the widow of deceased has a life interest. A. L. Smith, Egbert and Smith, are solicitors for the estate.
